

OIL & GAS INDUSTRY PARTS MANUFACTURING & FABRICATING

MCMILLANCO offers a distribution solution specifically tailored to the needs of natural gas companies. Every customer's needs are different, which is why our NGS division is focused on end-product quality and customer service. We listen to our customers and potential customers to understand exactly what they want moving forward. The most important solution we can offer is getting the correct part our customers need on-time and with the proper paperwork. We're here to change the industry moving forward.

NATURAL GAS SOLUTIONS

SPECIALTY COMPONENTS FOR NATURAL GAS SUPPLIERS

MCMILLANCO offers everything you need in order to keep your shop running smoothly, combining our unmatched service with the specific product offered. From oil and gas machining, to valve and compressor disc manufacturing, we are here to create and deliver the solution you need to stay on track and serve your customers on-time.

THE TRUE POWER OF A VMI SYSTEM

Our team can come in and help manage your inventory by establishing and maintaining a unique Vendor Managed Inventory (VMI) program tailored to your organization. We have found that when we have an expert in your facility to help, the outcome is unsurpassed! Improve your workflow, supply chain and bottom line with MCMILLANCO.
